PADDY QUIRKS

Paddy rings the Irish Airline and asks how long it takes a Jumbo to fly from Shannon to San Francisco. The girl on the end of the phone says "just a minute". He says "that's amazing" and hangs up.

Paddy cannot understand how his sister has 3 brothers and he only has 2

The Murphy twins were in their car listening to the 6million lotto results "Geez Paddy, we were so close. We got ALL the numbers but not in the right order." He threw the ticket out the window as they drove off.
